RACHELLE LEWIS TALENT

Animation - VFX - Virtual Production
rachelelewis.com

Position: SENIOR FRONTEND ENGINEER - Virtual Production

Location: Los Angeles

Contract: FT STAFF / STARTS ASAP

Contact: dana@rachelelewis.com

JOB SUMMARY:

This engineer is going to be responsible for tying all frontend functionality to the backend of the platform. This will include our native application as well as the Unreal UI. This position will be a central point between all engineers and designers, with the responsibility of communicating and reporting whether tasks are unrealistic or achievable within timeframes.

RESPONSIBILITIES & QUALIFICATIONS:

- Working with backend engineers to determine frontend requirements
- A Variety of UI web frameworks
- Experience with camera workflows and film terminology
- Position will be working closely with all of the UI designers
- Bonus skill would be having Unreal UI experience, or at least a deep familiarity with the product

If you are interested, please email **dana@rachelelewis.com** with your resume for more information.

If you fit the criteria, the next step would be setting up a phone or zoom where we can give you the full download after signing an NDA (requested by the client).
