RLT is seeking a **Senior 3D Generalist** for a US-based client that is building something special: new kinds of toys, and new experiences to go along with them. This is a well-positioned startup led by individuals from the Feature and Gaming space on a mission to empower, educate, and entertain the next-gen of collectors around the world. Already receiving excellent press and employee reviews, this company is setting themselves apart from other "NFT" developers on a number of fronts.

JOB SUMMARY

Our client is looking for a talented 3D Generalist with an affinity for stylized and whimsical characters and environments creation. The candidate must have industry experience in pre-rendered content as well rounded understanding of asset creation for real time use.

RESPONSIBILITIES

- Model, UV/texture stylized characters for real-time use and pre-rendered content.
- Creation of high end quality graphics for branding and marketing purposes.
- Collaboration with game designers, artists and tech-artists to promote the company's vision.

REQUIREMENTS

- 5+ years creating organic, hardware and environment assets for animation productions in film or video games.
- Strong fundamentals in design, color, values and composition.
- Strong ability for hand painted textures.
- Knowledge of the Unity3D game engine.
- 3D sculpting skills.
- Excellent communication skills and the ability to receive and provide feedback.
- Advance use of Maya, Zbrush, Redshift, Substance Painter, Adobe Suite
- Strong understanding of retopology and polygon flow for animation.
- Online portfolio demonstrating relevant artistic skills

BONUS

- Modo
- Blender
- Substance Suite
- Yeti Fur
- Mobile gaming experience
- Commercial/film production experience

- 2D character design
