RLT is seeking a **Technical Writer** for one of our clients. This company develops modern cloud infrastructure to support storage and computing needs for a wide variety of clients. They have entered a stage of hyper-growth that you will not want to miss out on!

JOB SUMMARY

Our client is seeking a talented technical writer who can maintain and improve the company's current documentation. This candidate will create clear, concise, and compelling documentation that helps lead the company's clients to success from trial to full integration, along with customer support documentation and technical blog writing.

REQUIREMENTS

- Bachelor's degree in English, communications, linguistics, or related field
- Minimum 4 years' experience as a technical writer, editor, or content strategist, with a focus on software or workflow applications
- Ability to conceptualize and execute projects, with a strong bias for action and the ability to prioritize and meet deadlines
- Outstanding skills in writing about complex technical subjects to a variety of audiences.
- Proven experience of technical editing/writing in a similar role.
- Ability to be self-directed and effective working independently, yet equally comfortable contributing in a team environment.
- Precise documentation and clear communication skills.
- Organization and attention to detail is a requirement for this role.
- Work independently and multi-task to meet critical deadlines in a rapidly changing environment.
- Experience with reviewing requirements and design documentation is a plus
- Experience in Production Support, QA, or Development is a plus.
- Preferred experience includes Kubernetes, Linux, Cloud Infrastructure, VFX, ML, Networking.

If you are interested in talking about this opportunity, please email us and include your resume.

If you fit the criteria, the next step would be setting up a phone call where we can give you the full download after signing an NDA.
